

South Oregon Street Safety Project

May 29, 2020

South Oregon Businesses,

We have good news to share as we come to the weekend. Business Oregon is awarding the city \$65,000 to support small businesses. This award will go with the City micro-loan program. We are finalizing the grant program details as we await the funds and will release more information soon regarding this program.

Additionally, we removed the closed sidewalk signs from the concrete work and opened the streets on the south side of the project. We will shift our parking signs around to re-navigate traffic with the next two weeks work on the north side of the project.

If you have any issues with access to your business, please reach out to us at betsy.roberts@jacobs.com.
