Press Release

JACOBS Ranked No. 1 Design Firm

August 28, 2019

JACOBS Engineering was recently awarded top honors for Engineering News-Record's (ENR) list of Top 500 Design Firms in the World. JACOBS has consistently achieved a top-five ranking in ENR's annual list since 2003.

The City of Ontario contracted its Public Works Department out to JACOBS Engineering in 2013, an agreement which was renewed last year. Regarding the honors from ENR, Mayor Riley Hill said, "It's great to work with a company who has such depth and expertise, who is known for being a great employer, and who shares the same values as our City."
